## PROJECTS

- **Online Appointment Booking System for Clinics and Hospitals *PHP-based Web Project*** 3 month  
Developed a robust web application to streamline appointment scheduling for clinics and hospitals. This system encompasses three primary roles:
  - Admin: Manages doctor details and schedules, ensuring seamless operation.
  - Patients: Enables easy booking of appointments based on doctors' availability, enhancing patient convenience.
  - Doctors: Allows doctors to manage their appointments and patient requests efficiently.**Tech:** HTML, CSS, Javascript, Bootstrap, MySQL, PHP
- **Cryptocurrency Dashboard** 1 month  
The Cryptocurrency Dashboard Project showcases the development of a user-friendly and feature-rich application using React. By focusing on data visualization, portfolio management, and a robust notification system, the dashboard aims to provide a comprehensive solution for cryptocurrency investors and enthusiasts.  
**Tech :** React Framework, Javascript
